

Chkobba Game UI/UX Design Guidelines

This document outlines recommended UI/UX principles for designing a modern digital Chkobba game. The goal is to create an interface that feels readable, fast, social, and culturally authentic while remaining polished and accessible for both casual and competitive players.

1. Core Layout

- The game table should dominate the screen.
 - Use a green felt or warm wooden café-inspired background.
 - Keep the center visually clean and uncluttered.
 - The UI should prioritize gameplay readability over realism.
-

2. Center Area — Played Cards

- The center table area is the most important gameplay zone.
 - Cards should be slightly larger and clearly spaced.
 - Use subtle shadows and layering.
 - Add smooth card throw and capture animations.
 - Highlight valid captures with glow effects.
-

3. Player Hand Area

- Player cards should appear at the bottom of the screen.
 - Cards may curve slightly upward for comfort and readability.
 - Support tap and drag interactions.
 - Cards should enlarge slightly on hover or tap.
 - Touch targets must remain large enough for mobile devices.
-

4. Opponent UI

- Show avatars and remaining card counts.
- Do not display opponent hands.
- Briefly show the last played card.
- Support lightweight emotes or reactions.

5. Scoreboard Design

- Scoring must remain visible and easy to understand.
 - Use live score updates with subtle animations.
 - Allow players to tap for scoring explanations.
 - Important categories include: Chkobba, Dinari, Berga, 7 of Dinars, and Most Cards.
-

6. Important UX Features

- Highlight valid moves for beginner accessibility.
 - Clearly indicate whose turn it is.
 - Use timers or glowing indicators for active players.
 - Animations should feel responsive and satisfying.
 - Capture animations should include pulsing and sweeping motions.
-

7. Visual Style Direction

- Recommended approach: modern minimal UI with subtle Tunisian styling.
 - Use clean typography and restrained textures.
 - Traditional palette: dark green, walnut brown, beige, gold accents.
 - Modern palette: navy, charcoal, cyan accents, white cards.
 - Avoid cluttered layouts or overly bright neon colors.
-

8. Mobile UX Recommendations

- Prioritize one-handed usability.
 - Use large touch targets.
 - Animations should remain fast and lightweight.
 - Recommended interaction flow: tap to select, tap to confirm.
-

9. Features That Add Personality

- Card shuffle sounds.
 - Table knock audio effects.
 - Subtle café ambience.
 - Localized Tunisian emotes or reactions.
 - Voice effects for major moments such as 'Chkobba!'
-

10. Recommended Final Direction

- Use a minimal competitive interface.
 - Add subtle cultural styling rather than heavy ornamentation.
 - Prioritize readability, responsiveness, and satisfying gameplay feedback.
 - Focus on making the game feel alive and polished.
-

Example Scoreboard Structure

Category	Points
Chkobba	2
Dinari	1
Berga	1
7 of Dinars	1
Most Cards	1

A successful Chkobba UI should feel quick, intuitive, social, and satisfying. The best implementations balance competitive clarity with subtle Tunisian identity.
